Yegler, Dec. 2.—The firing which began at 11 last night continued un- til 1 this morning, but none were in- jured. The attack was centered on the pumping station. If this is crippled it would compel the mines to shut down. All is quiet today.

CLEANSING NEW YORK.

Mayor McCellan Fighting a Brave Battle for Good Order.

New York, Dec. 2.—The periodical denunciation of the police has begun again with the familiar statement that New York is one more "wide open." Police Commissioner McAdoo is credited with zeal and honesty of purpose in the immense and practi- cally impossible task of enforcing the law against gambling and evil resorts and preventing "grafting" by the police, but specific charges that he has failed as dismally as other commis- sioners, except Roosevelt, are made, and can hardly be denied.

It is said that below Forty-second street there is scarcely any attempt at secrecy about the operation of poolrooms. Besides the betting on racing going on throughout the coun- try, other games of chance are operat- ed. In some cases it is said that there is not even a partition to divide the poolroom proper from the portion of the apartment where other games are played.

If a patron loses on the horses, he often attempts to recoup at the other games, and vice versa. That payment and heavy payment, is made for per- mission to carry on gambling in this varied style is not doubted. Perhaps Tammany is making good ante-elec- tion promises to the vicious element, but it is only justice to say that Mayor McCellan and Commissioner McAdoo are doing all they can to fulfill their promises of a clean government.

HIGH PRICE RANGE STEERS.

Twenty-Eight Dollars Around Realiz- ed for Two-Year-Olds in Texas.

A Clarendon, Texas, dispatch says: The highest price received this season for range cattle in this section was realized by J. S. Jeffries of Boydston, who disposed of 40 head of 2-year-old steers to Charles Harris for \$28 around. Cattle values have been even lower here than it would appear the low market would justify, and since the sale of this bunch at such a fig- ure many express their determination to hold for an advanced price.

The employees of the J. A. ranch have purchased about 500 head of yearling steers, paying an average price of \$14 a head.

BEEF TRUST BOOKS TO BE EXAMINED

GOVERNMENT DEMANDS FULL REPORT OF BUSINESS.

Investigation by Congress, Which Has Utterly Failed So Far, Will Be Re- sumed With Vigor—James A. Gar- field Authorized to Delve Into the Accounts to Determine if the Busi- ness is Conducted Contrary to Law.

Chicago, Dec. 2.—Commissioner of Corporations James A. Garfield is coming to Chicago to demand that the beef trust open its books to him and submit to investigation by the bureau of commerce and labor.

Garfield, it is believed, will leave Washington within the next week, coming direct to Chicago and issuing subpoenas for the trust leaders to ap- pear before him and produce their books.

This action will close the investiga- tion into the beef trust methods begun last spring on the order of congress and which, thus far, has failed utterly. The trust, which, when the inves- tigation started, professed itself will- ing and anxious to show its books and to assist the department of commerce and labor in every way possible in the investigation, has broken its prom- ise and failed to produce the books wanted.

Must Produce Trust Books.

Eminent attorneys for the govern- ment declare that Garfield, under the power conferred upon him by the congressional resolution, can force the trust to produce its books in court.

Special agents of the government who have been at work in Chicago during the last six months have prac- tically incontrovertible proof that the packers—Armour, Swift, National and Morris—have violated repeatedly and consistently Judge Grosscup's injunc- tion and the proof, when laid before congress probably will result in drastic action against the combine.

But, despite the fact that the agents have discovered the cost of cat- tle, one the ranges, of fed cattle, freight rates, stockyards charges, cost of manufacturing, and the selling prices, the trust has hidden, in its secret books, much matter that is wanted.

JUSTIFIABLE HOMICIDE.

Coroner's Jury Refuses to Find Against Felton.

New York, Dec. 2.—The coroner's jury today returned a verdict of jus- tifiable homicide in the case of Frank Felton, charged with killing Guy Roche, the gambler. But for the fact that Felton had been indicted by the grand jury for murder in the first degree he would have been discharg- ed.

TWO RUNAWAYS.

Apprehended and Taken Back to Portland.

Two lads, neatly dressed, were placed under arrest last night by Marshal Carney upon telegraphic in- structions from Portland, stating that they had run away from home. James Hewitt, father of one of the boys, arrived in Pendleton this morning, and returned with them to Portland.

The boys are about 18 years of age. Both were willing to return home, and explained their leaving by stat- ing that they wanted to see the world. Knowing that they could not obtain their parents' consent, they took their departure without notifying anyone. Hewitt stated that he was not un- easy regarding the welfare of his boy, but that the lad's mother was almost frantic at his leaving, so he notified the Portland police and caused their apprehension. The other boy is the son of a widow, and his mother is very anxious regarding him.

BAZAAR A SUCCESS.

Brilliant Display at Armory Hall Last Night and Tonight.

The first night of the Presbyterian bazaar surpassed the expectations of the women in charge and this after- noon the early crowds were but a hint of what is to come this evening.

All the booths were well patronized last night, many of them selling al- most the entire stock on hand. The hall was thronged with visitors and purchasers until late at night and the attendants were rushed with the work.

The various booths are beautifully arranged and the bazaar presents a brilliant appearance. All the booths did a thriving business last night, de- spite the counter attractions in the city. Tonight will be even more bril- liant than last night, a musical pro- gram and other entertainments hav- ing been prepared for tonight.

\$41,000 FARM SOLD.

T. K. Beard Sells 1640 Acres to Clo- vis Plaquet at \$25 Per Acre.

One thousand six hundred and forty acres of Umatilla county farm- ing land changed hands today, em- bracing one of the largest sales of realty recorded in this section of the country in recent months. The pur- chase price was \$41,000.

The property sold belonged to T. K. Beard and was purchased by Clo- vis Plaquet. The deal was consum- mated through C. C. Berkeley, a local real estate dealer.

The land lies five miles northwest of Pendleton, and is one of the largest farms in one piece in Umatilla county. Part of this big ranch was once the old Welch place. The soil is very productive, and produced crops for a number of years.

The Catholics of Baker City are holding a fair to start a fund for the erection of a cathedral at that place.

He en- gaged in trading in hides and other commodities produced on the coast before the days of gold, and with the city's later growth became one of the most prominent men of California. Before the creation of the office of mayor he was president of the board of supervisors, and in that capacity discharged the duties of the mayoral- ty.

FOR Y. M. C. A. AT PENDLETON

SUBJECT IN THE HANDS OF STATE COMMITTEE.

This Point is the Most Promising Un- occupied Territory in the North- west—Local Assistance Will Be En- listed for the Erection of a Building With All the Usual Appurtenances of Such an Institution.

The matter of organizing a Y. M. C. A. branch in this city and erecting an elegant building is now in the hands of the state executive committee of that organization.

At the recent state convention of the Y. M. C. A. at Salem, at which E. G. Estabrook of Pendleton, was present as a delegate, the matter of be- ginning an active campaign in this county was thoroughly discussed, and it was decided that this is the most promising field now left open for an organization, in the entire Northwest.

The executive committee was in- structed to look over the field, esti- mate the local assistance to be en- listed and if the prospect promised any returns whatever, to begin active work toward the erection of a fine building, and the organization of a strong branch here.

Mr. Estabrook feels confident that such a movement will result in the construction of an elegant building in this city, fully equipped with library, reading rooms, baths, gymnasium, assembly hall and all other features of a first-class Y. M. C. A. organiza- tion.

Willamette valley towns not nearly so large nor live as Pendleton, sup- port large branches of this organiza- tion and have substantial buildings in which are found all the conveniences and amusements of the Y. M. C. A. buildings in Portland and other large cities.

\$190,800 NOW FORTHCOMING

Result of Mrs. Chadwick's Interview With Carnegie's Wall Street Attorneys.

SHE IS REGARDED AS A GREAT CURIOSITY.

Money to Reimburse Banker Newton Comes From a Presumably Secret Source—The Oberlin, Ohio, Bank, Which Closed Because of Newton's Loan of its Funds to Mrs. Chadwick Is Reopened—Mrs. Chadwick Will Sail for Europe and Will Not Pub- licly Defend Herself.

New York, Dec. 2.—Mrs. Chadwick took a cab and drove to the office of the Central Trust Co. this morning, with Lawyer Bowers, her counsel.

A crowd of a thousand people fol- lowed the Chadwick carriage into Wall street in an endeavor to catch a glimpse of the woman as she en- tered the Central Trust Co.'s build- ing. The attendants held back the crowd and escorted her to the eleva- tor, which took her to the offices of the lawyers.

It is stated there are no new de- velopments in Mrs. Chadwick's af- fairs.

Newton Gets His Money.

Immediately after the visit of Mrs. Chadwick to the offices of Butler, Nottman, Jolin & Mynders, attorneys for Carnegie, George Ryan, counsel for Banker Newton, announced that Newton's claim of \$190,800 would be paid in full, with interest. He added, "I will give the money to Newton, and he will never know who paid it to me. I can't reveal the identity of Mrs. Chadwick's friends."

TEN-ROUND GO.

Mullen and Mitchell Meet at the Fra- zer Tonight.

Barney Mullen and Jack Mitchell will meet for a 10-round go at the Fraser this evening. Both men are clever boxers and among the best lightweights in the Inland Empire. Several interesting preliminaries will be pulled off with local amateurs in the ring.

The records of Mullen and Mitchell show some strong fights, and victories over hard hitters. The men were to have fought in this city a month ago, but the event was postponed on ac- count of objections raised by the po- lice.

Both fighters are in good condi- tion for the match tonight, and it is believed the bout will go the limit. Betting on the result of the contest is about even. Mitchell has fought twice in Pendleton and knocked out his man both times. Mullen has never appeared in a Pendleton prize ring, but during the summer fought Indian Joe Gregg 17 rounds, losing on a foul after he had broken his right hand.

Lewis Cargill and Vaughn Finch will go on in the main preliminary this evening. The other boxers are Rod Dupuis and Hank Gully.

Rice Visits Pilot Rock.

G. M. Rice, cashier of the First Na- tional Bank of Pendleton, was a vis- itor to Pilot Rock yesterday. This was Mr. Rice's first visit to this section of Umatilla county. Mr. Rice succeeded to his present position on the resignation of C. B. Wade. Mr. Rice is a very pleasant gentleman to meet and looks more like a farmer or stockman than a cashier of a bank. He is approachable and seems to be very popular with the country people. Since Mr. Rice assumed management of the affairs of the First National bank that solid old institution is see- ing its brightest days. According to the last report issued there is now nearly \$1,000,000 on deposit.—Pilot Rock Record.
